

Web Design from Scratch

The following video was shown in my presentation to the Red Hot Referrals chapter of BNI on Wednesday, January 23rd.

In this video, I highlight the design process for a single page site. The job was a referral from a BNI member. Thanks again Kristen!

Feel free to visit the site, and if you are ever headed up north stop in at Fish Lake Bait in Harris. It is a stone's throw from the Interstate and they really do have the lowest prices on live bait.
